

## Arizona Mental Health Criminal Justice Coalition

### Coalition Support Agreement

**The mission of the Arizona Mental Health Criminal Justice Coalition is to reduce the numbers of those with mental disorders and addictions who are incarcerated through Prevention, Intervention and Treatment.**

#### AZMHCJC Values

- Mental illness and addiction are diseases of the brain.
- A person with a mental health disorder must have treatment available, both inside and outside of our criminal justice system.
- People with a mental disorder or addiction who are incarcerated deserve humane treatment, as do all those who are incarcerated.
- Removing barriers to housing and employment for those with mental health challenges is essential to support those re-entering our communities after incarceration.
- Statewide mental health, criminal justice collaboration is required to create linkage to services for those who are justice involved.

**We support the mission and values of the Arizona Mental Health Criminal Justice Coalition. We grant permission to use our name and logo in brochures, news releases and materials promoting campaigns directly related to the mission of AZMHCJC. Endorsers may be listed on our website.**
